12.15 – 13.00	Lunch in Marshal's Office (paid by P12)
13.00 – 16.30	<p>Study visit: Jasionka - Technology Incubator and Science and Technology Park AEROPOLIS and MTU Aero Engines Polska</p> <p><i>Speech by Krzysztof Kłak Head of Rzeszow Regional Development Agency - Podkarpackie Science and Technology Park Aeropolis.</i></p> <p><i>Speech by Jolanta Skrzypkowska Representative of the Aviation Valley SGPPL Dolina Lotnicza - Aviation Valley as a World Class Cluster</i></p> <p><i>Speech by Krzysztof Zuzak president of MTU Aero Engines Polska – Presentation of MTU Aero Engines Polska</i></p> <p><i>Science and Technology Park AEROPOLIS is one of the "economic zones" in Poland - tool of regional policy for extreme difficult areas. The aim of these "special economic zones" promoted some years ago was helping specific rural regions to develop. AEROPOLIS it is now one of the most attractive places to invest in southeastern Poland.</i></p> <p><i>Technology Incubator and companies, those belonging to the Aviation Valley also, are placed there. The goal of Technology Incubator is to create a place to focus on and promote the development of high technology in the aviation field, informatics, and automotive industries.</i></p> <p><i>The Aviation Valley Association gathers 96 companies, which employ about 23 thousand engineers and technicians. Some of these companies are located in economic zones in the Podkarpackie Region. The Aviation Valley focuses on aviation industry, research centers and educational and training facilities. It is an opportunity for the south-eastern Poland to transform into one of the leading regions providing a variety of products and services related to the aviation field.</i></p> <p><i>In Jasionka- apart of the AEROPOLIS and companies from the Aviation Valley it is also located the regional airport. On the way to there the group will have the chance of directly seeing means of transport and viary infrastructures in</i></p>

	<p>use for mobility in the area.</p> <p>MTU Aero Engines Polska The new affiliate of MTU Aero Engines started operations in 2009. It boasts high-tech facilities for the manufacture of turbine blades and other components. Moreover, MTU has pooled module assembly activities for a variety of commercial engine programs in Rzeszów. Another field of competence of MTU Maintenance Polska is the repair of engine components, such as tubing and honeycomb seals.</p> <p>Field visit in the afternoon approaches the mobility field from a "macro", industrial and economic perspective but we get the "micro" approach to everyday mobility through speeches scheduled for the morning of this day. It is expected this mixture of approaches- micro & macro and private & public planned for study visit day to work efficiently.</p>
18.30	Dinner in Grand Hotel (paid by P12)
